Profiles

Linkedin:
https://www.linkedin.com/in/sergiu-george-pop/

GitHub:
https://github.com/SeGePop

Front-End Development:

- HTML5
- CSS3
- JavaScript
- React.js
- Redux

Back-End Development:

- Node.js
- Express.js
- PostgreSQL
- MySQL

Other Tools and Concepts:

- GIT
- Bash
- Relational Databases
- Web Development
- Figma
- SASS
- Adobe Photoshop

Soft Skills:

- Fluent in English
- Problem Solving
- Creativity and Innovation
- Personal Drive and Ambition
- Adaptability
- Interdisciplinary Collaboration

Front-End Developer

Pop Sergiu-George

Web developer leveraging a background in computer science and a passion for programming to learn and apply HTML, CSS, JavaScript, Bootstrap, jQuery, React, and other programming language Continuously seeking opportunities to improve and expand technical skills.

With a decade long career in mechanical engineering in 2D design and 3D modeling, project management, and international delegations, I am seeking to utilize those experiences as a fullstac developer

Projects

1. https://segepop-web-developer.vercel.app/clock .... [HTML5, CSS3, React.j
2. https://github.com/SeGePop/World-Cup-Database .... [Git, Shell, PostgreSQL
3. https://segepop-web-developer.vercel.app/to_do_list .... [Javascript]
4. hhttps://segepop-web-developer.vercel.app/calculator .... [React.js]
5. hhttps://segepop-web-developer.vercel.app/drum .... [HTML, CSS, Javascrip
6. https://github.com/SeGePop/boilerplate-project-exercisetracker .... [Node.js, Express.js]

Work Experience

Mechanical Design Engineer   GMAB Consulting

November 2012 - June 2023 (10 years 8 months) | Oradea, BH

- **Drafting and Design:** Created detailed 2D blueprints for various engineering projects. Designe complex 3D models using software tools such as CATIA, FIDES, and NX.
- **Project Management:** Successfully managed a 3-month-long engineering project from inception to completion. Coordinated tasks, timelines, and resources to ensure project milestones were met.
- **Station Management:** Worked as a station manager, overseeing operations and ensuring efficiency. Delegated responsibilities to team members and maintained smooth workflow.
- **Technical Training:** Trained new employees in both 2D and 3D design software (CATIA, FIDES, NX). Facilitated knowledge transfer and ensured proficiency in design tools.
- **Onsite Engineering:** Acted as an onsite engineer during project execution. Collaborated with assembly teams, resolved technical issues, and ensured quality.
- **International Collaboration:** Delegated to England, working closely with cross-functional tean Communicated effectively across borders to achieve project goals.
